

Hartness Library

Serving Vermont Tech and the Community College of Vermont

Library

Moodle

Branch out and try Library in Moodle (LIM)!

It's easy to integrate library resources into your Moodle courses with LIM! With these tools, you can guide students directly to resources such as:

- * Research & Subject Guides
- * Library Tutorials & Videos
- * Subject-Specific Research Databases
- * Citation & Plagiarism Prevention Tools
- * One-on-One Research Help from Librarians

LIM Branches

Library Toolbox

Request a tab-display module for your course that links to subject or course-specific library resources. Create your own sidebar block with links to the library resources you want for your class.

Linking & Embedding

Request one or more of these lessons with interactive questions, integrate specific journal articles, journal titles, videos or library-created resources like subject guides directly into Moodle.

Library Lessons

Request one or more of these lessons with interactive questions, instructional material & videos of that teach students the basics of research methods.

Embedded Librarian

Sign up for a Class Librarian to provide semester long one-on-one research support for your students.

The Information

Request TILT for your class, along with prebuilt quizzes addressing the concepts in each module.

Literacy Tutorial (TILT)
